Selamat Datang di App POS

POS atau Point of Sales adalah suatu sistem yang digunakan dalam kebutuhan berbagai macam usaha bisnis ritel untuk dapat mempermudah proses transaksi jual beli secara cepat, aman, dan sistematis. POS juga termasuk versi modern dari mesin kasir konvensional yang masih sering digunakan pada beberapa toko atau usaha.

PROJECT WEB

SIPPRO

The screenshot shows the SIPPRO dashboard with a welcome message "Welcome, admin". It displays various statistics: Data User (4), Kategori (7), Request (1), Pemasok (4), Data Satuan (6), Data Produk (214), Produk Masuk (5), and Produk Keluar (35). A sidebar on the left lists categories like DASHBOARD, PRODUK, PEMASOK, REQUEST PRODUK, and LAPORAN.

A modal window titled "Tambah Data Masuk" is open, showing a dropdown menu "Pilih Produk" with options like "Kertas Jeruk Putih - SD | PRD202305031049 | Stok 1" and "Kertas Linen - SMP | PRD202304032419 | Stok 0". Below the dropdown is a date input field set to "05-03-2023". A "Simpan" button is at the bottom right.

The screenshot shows the "Cetak Laporan" (Print Report) section. It includes two main report selection areas: "Cetak Laporan Produk Masuk" (Print Product Input Report) and "Cetak Laporan Produk Keluar" (Print Product Output Report). Each area has dropdown menus for "Bulan" and "Tahun" (Month and Year) with buttons for "Cetak Laporan" (Print Report).
